Summary

Senior Full Stack Developer with 5+ years of production experience engineering web applications, distributed microservices, and enterprise platforms across React.js, Next.js, Node.js, TypeScript, PostgreSQL, and MongoDB. Accelerated database query throughput by 35%, maintained cloud infrastructure on AWS and Docker at 99.9% uptime, and delivering enterprise solutions with immediate availability in Qatar.

Work Experience

Tharb - Doha, Qatar 2021 – Present
Senior Full Stack Developer

- Spearheaded the development of web and client/server applications using React.js, Next.js, and Node.js, increasing application scalability and overall performance by 30%.
- Architected and deployed secure REST APIs and microservices using Express.js and TypeScript, handling 50,000+ daily requests with 99.9% uptime and centralized error tracking.
- Accelerated customer-facing query throughput and database indexing in MongoDB Atlas and PostgreSQL, decreasing API latency by 35%.
- Mentored 4 junior engineers on TypeScript standards and modular design patterns, shortening feature sprint delivery cycles by 30%.
- Strengthened application security through MongoDB Atlas, JWT authentication, and role-based access control (RBAC), reducing unauthorized access attempts by 40%.
- Orchestrated continuous deployment pipelines via GitLab CI/CD, Docker containerization, and AWS infrastructure (EC2, S3), reducing release cycle turnaround time by 45%.

TechGeekFirms - Mumbai, India 2020 – 2021
Full Stack Developer

- Engineered responsive MERN stack web applications using React.js, Node.js, and MongoDB, delivering 8+ client modules with 99.8% crash-free sessions.
- Formulated secure RESTful API endpoints and middleware using Node.js and Express.js, handling 20,000+ daily payload transactions across distributed services.
- Advanced exception handling, debugging, logging, and tracing methodologies, improving application runtime stability and accelerating issue resolution by 25%.
- Eliminated critical production defects via systematic root-cause debugging and Postman testing, reducing recurring issue incidence by 35%.
- Partnered with cross-functional UI/UX designers and QA teams to ship scalable features, boosting overall sprint delivery velocity by 20%.

Technical Skills

- **Programming Languages:** JavaScript (ES6+), TypeScript, Python, C, C++, SQL
- **Frontend Technologies:** React.js, Next.js, Redux, Redux Toolkit, Zustand, HTML5, CSS3, Tailwind CSS, Responsive Design
- **Backend Technologies:** Node.js, Express.js, REST APIs, GraphQL, Microservices Architecture
- **Database Technologies:** MongoDB, PostgreSQL, MySQL, Database Design, Indexing & Query Optimization
- **Messaging & Caching:** Apache Kafka, Redis (Caching & Session Store)
- **AI & LLM Technologies:** Google Gemini, OpenAI API (GPT models), ChatGPT, Ollama, Prompt Engineering
- **Cloud & DevOps:** AWS (EC2, S3), Docker Containerization, CI/CD, GitLab CI/CD, Linux
- **Developer Tools:** Git, GitHub, Postman, Jest (Unit Testing), Swagger, Vercel
- **Architecture & Concepts:** Microservices, Event-Driven Architecture, Scalable Systems, Backend Architecture, High Availability

Projects

SmartHireX Recruitment Automation Platform 2026

- Programmed multi-platform job distribution workflows, expanding candidate reach by 40% across 5+ hiring channels.
- Constructed a centralized CV candidate tracking pipeline, reducing recruitment screening cycle time by 35%.
- Configured granular role-based access control (RBAC) and real-time candidate dashboards, raising recruiter screening productivity by 25%.
- Integrated AI-powered resume parsing and filtering mechanisms, shortening evaluation time by 50% across 1,000+ candidate applications.
- Standardized high-performance RESTful APIs using Node.js and MongoDB Atlas, supporting sub-200ms response times across concurrent user sessions.
- Streamlined backend aggregation pipelines and database indexing, elevating search throughput and system responsiveness by 35%.

Store Management System (Qatar) (CRM & POS) 2025

- Designed and deployed an integrated CRM and multi-store POS platform, centralizing billing, procurement, and stock management across 4+ retail locations.
- Established role-based dashboards for administrators, cashiers, and store managers, enabling streamlined access to 10+ operational and reporting modules.
- Systematized real-time inventory monitoring and low-stock alerts, reducing inventory reconciliation overhead by 60%.
- Synthesized sales analytics and real-time revenue dashboards, providing store owners with actionable insights that improved stock turnover by 25%.
- Created fault-tolerant checkout and billing modules with digital invoice generation, eliminating manual invoice discrepancies by 99%.
- Enhanced backend API performance through indexing optimization techniques, decreasing system response time by 35% during peak transactions.

Enterprise E-Commerce Platform (MERN) 2024

- Delivered a scalable multi-vendor e-commerce platform supporting 5+ core modules, including dynamic product catalogs, cart, checkout, and inventory tracking.
- Structured high-concurrency Node.js microservices and MongoDB schema models, improving order processing throughput by 40%.
- Secured Stripe and Razorpay payment gateway integrations with real-time webhook listeners, achieving a 99.8% transaction success rate.
- Crafted responsive, mobile-first user interfaces using React.js and Redux Toolkit, decreasing client interaction latency by 30%.
- Administered role-based security configurations for customers, vendors, and admins, safeguarding accounts and operational data.
- Containerized application deployment with Docker and Redis session caching, reducing server load spikes by 45% during peak flash sales.

Education

Bachelor of Science in Computer Science & Technology 2021

BAMU University, Aurangabad, India

Key Domains & Strengths

- **Industry Domains:** Enterprise E-Commerce, Retail POS & Inventory ERP, AI Recruitment Tech (HRTech)
- **Languages:** English (Professional Working Proficiency), Arabic (Conversational), Hindi (Native), Urdu (Fluent)

Qatar ID Expiry Date
